

"FREE"

To get rid of fears.
To get rid of the hurry to do.
To get rid of approvals.
To get rid of everything that blocks expressiveness.
It takes little, something unexpected, fortuitous combination...
to go over the obstacle to feel FREE!

This happens to the two protagonists.
An unusual place, a bit of curiosity, a song of the past; this is
the mix that takes them "over", that transform them in singers,
dancers, acrobats...
that makes them feel....." FREE"

Technical requirements:

- a plane space of 8 meters x 10 meters
- height 8meters
- light point 220 V
- place of performance reachable by camper
- any parking permits
- camper parking near the place of performance
- assembly time 3 hours
- disassembly time 2 hours
- 2 volunteers for the final assembly part of the structure

Duration: 40 minutes

The structure is self-supporting (it does not need anchor ground).
We are provided with audio and lighting system.
